EXPERIENCE

Web Software Engineer
Coder Foundry
📅 2020 - Ongoing   📍 Kernersville, NC

- Fully designed and developed a multi-functional issue tracker web application, implementing enhanced roles & security, which used a Code First Relational database designed and modeled in SQL Server.
- Created a Financial Portal implemented in multiple phases including an MVC Web Application written with .Net Framework and a Web Service that utilizes Swagger and Swashbuckle for integrated testing.
- Developed multiple web applications remotely, including portfolio and blog websites, as well as various Javascript coding challenges.

International Consulting Specialist
Alex & Lynn Behavior Consultation
📅 2017 - 2020   📍 Doha, Qatar

- Created parent and paraprofessional training workshops utilizing QR code scanning technology to track performance, resulting in >60% improvement in functional behavioral skill-set for 100+ attendees.
- Provided remote clinical supervision and dissertation edits for graduate students in Ireland, Nigeria, Canada, and United States, resulting in 100% pass rate for supervisee thesis defense and 100% successful board certification rate.
- Headed an ethics committee to review current research topics within field, best practices for service delivery, and peer review for challenging cases; led to improved documentation and clinical services for 80+ clients across centers and therapy settings.

Lead Behavioral Technician
New England Center for Autism Education & Research
📅 2011 - 2017   📍 Abu Dhabi, United Arab Emirates

- Selected to lead specialized team of 7 behavior scientists for member of Abu Dhabi royal family, developed intervention guidelines and individualized educational assessment tools resulting in behavioral and cultural integration across 12+ countries
- Representative at annual conference of 4.5K+ attendees on panel discussing history of international dissemination of behavior analysis, serving 13K+ clients in 18+ countries and 270+ research studies
- Remotely implemented impact assessment measuring cycle time, quality, productivity, and cost of services for centers ranging from $500K-$4M serving 140+ clients in Qatar, Saudi Arabia, India, Lebanon, and Russia, delivering previously unavailable autism therapy.
